ACCESS SECURITY REQUIREMENTS

We must work together to protect the privacy of consumers. The following measures are designed to reduce unauthorized access of consumer credit reports. In accessing consumer credit services, you agree to follow these measures.

1. You must protect your account number and password so that only key personnel employed by your company know this sensitive information. Unauthorized persons should never have knowledge of your password. Do not post this information in any manner within your facility. If a person who knows the password leaves your company or no longer needs to have it due to a change in duties, the password should be changed immediately.
2. System access must have your account number and password "hidden" or embedded and be known only by supervisory personnel. Assign each user of our system access software a unique login password. If such system access software is replaced by different access software and therefore no longer in use or, alternatively, the hardware upon which such system access software resides is no longer being used or is being disposed of, your password should be changed immediately.
3. Do not discuss your account number and password by telephone with any unknown caller, even if the caller claims to be an employee of your credit or data provider.
4. Restrict the ability to obtain credit information to a few key personnel.
5. Place all terminal devices used to obtain credit information in a secure location within your facility. You should secure these devices so that unauthorized persons cannot easily access them.
6. Secure hard copies and electronic files of consumer reports within your facility so that unauthorized persons cannot easily access them.
7. Shred or destroy all hard copy consumer reports when no longer needed.
8. Erase and overwrite or scramble electronic files containing consumer information when no longer needed and when applicable regulations permit destruction.
9. Make all employees aware that your company can access credit information only for the permissible purposes listed in the Permissible Purpose Information section of your membership application. You or your employees may not access their own reports. Nor should you or your employees access the report of a family member or friend unless it is in connection with a credit transaction or for some other permissible purpose.

RECORD RETENTION

Thee Federal Equal Opportunities Act states that a creditor must preserve all written or recorded information connected with an application for 25 months. In keeping with the ECOA, credit bureaus require that you retain the credit application and, if applicable, a purchase agreement for a period of not less than 25 months. When conducting an investigation, particularly following a consumer complaint that your company impermissibly accessed their credit report, the credit bureau will contact you and will request a copy of the original application signed by the consumer or, if applicable, a copy of the sales contract.

"Under Section 621 (a) (2) (A) of the FCRA, any person that violates any of the provisions of the FCRA may be liable for a civil penalty of not more than \$2,500 per violation."

RECOMMENDED SCREENING GUIDELINES

Entry level employees: Name & Address Verification via SSN and a Criminal Record Search

Criminal checks should always be requested with a report that provides current and previous addresses; as well as name verifications. An address or name not listed on the application for employment may reveal undiscovered Criminal Convictions.

Management: Credit Report, Criminal Record Search using current and all previous addresses, and a Driver's History Report.

Upper Management: Same as Management and Civil Searches using current and all previous addresses.

**Current Employees: Criminal Record Search
Driver's History Report*
Credit Report****

Periodic evaluations after hire insures continuity while avoiding unnecessary losses and additional liability. A regularly scheduled check of Credit and or a Driving History could reveal changes in behavior that might require corrective action.

*For employees assigned driving duties, a Driver's History Report is recommended every three months or at least twice a year.

**For individuals with access to valuables or easily saleable inventory, request a Credit Report every six months.

Customized Package: Select the products and services that best fit your needs. We'll even customize a combined value search for you.

Call today at 732-321-0041 for more information on best practice policies for pre-employment screening.

SEARCH STRATEGIES

First request a Name & Address Verification via SSN (Social search). Then compare the names and addresses returned by the report. Alias, nicknames, maiden names and married names should be submitted as an additional and separate search. Additional addresses returned in the SSN trace report should also be searched for criminal records based on the statewide and countywide level.

Consider statewide criminal searches. Applicants often live and drive between several surrounding counties. Some instant statewide criminal database searches offer only “Jail–Corrections” records and/or records that are not updated monthly. These states will need additional countywide or on-site searches for a more comprehensive criminal background search.
